

Steps as a new user you need to follow to operate Builderstreet Solutions :

1. Visit this : <https://getmethat.ca/ecowaste/public/>
2. Go to Login/Registration and register yourself on seller module first
3. Once applied for the registration you need to get it verified by the admin to login with those credentials.
4. For admin visit : <https://getmethat.ca/ecowaste/public/login>
5. Under the admin portal, move to Seller Requests and scroll down to approve the newly added seller.
6. Create a listing once you have successfully logged in after making the subscription purchase.
7. After entering all information in create list user can save the post. Once saved it can also been seen on the seller dashboard.
8. On the seller dashboard itself users can view their selected payment and subscription details.
9. Thereafter to raise an RFQ on the newly created list item you need to register yourself as a buyer.
10. Once buyer registered please login into the dashboard
11. You can view all products listed by every seller on the site
12. The buyer is also able to alter results using the seach bar on the dashboard to find the perfect product quicker.
13. Click on any product to view the details of the product and chat with the seller
14. Click Generate RFQ on the header to raise a RFQ against any uploaded product
15. Now you have to go back to the Seller Module > Login > Profile > All RFQs then approve the request from the buyer.
16. Once approved buyer will get a notification of approval as the confirmation
17. Buyer can also view selected payment and subscription history.
